Tammy Cantrell, Executive Vice President, Chief Product Strategist, 866/692-6771 ext. 9312.

Dear Members,

Please find attached to this letter our unaudited financial statements and regulatory ratios for April 2024. Our April 2024 5310 report can be found at <https://www.corporateone.coop/About/Financials>. In addition, our 2023 audited consolidated financial statements and footnotes can be found on our public website.

Year to date through April 30, 2024, we recorded \$15.2 million in net income, resulting in retained earnings exceeding \$328.3 million. As of April 30, 2024, we hold total regulatory capital of \$548.5 million, which in addition to retained earnings, includes \$227.0 million of Perpetual Contributed Capital (PCC) from our member credit unions. This capital results in a leverage ratio of 10.33 percent, exceeding the NCUA's Regulation 704 well-capitalized level of five percent. Our strong capital levels support our balance sheet and underscore our financial stability.

We understand that one of the primary purposes of a corporate credit union is to provide liquidity to our members. Accordingly, we constantly monitor our members' demands on our liquidity and evaluate the adequacy of our liquidity sources. We maintain diversified sources of funds, which provide approximately \$3.9 billion in borrowing capacity. Quarterly, we test our ability to access our borrowing facilities to ensure those sources of funds are available when needed. In addition, our securities portfolio contains highly rated securities with readily determined market values that are all classified as available for sale and can be sold or borrowed against to generate liquidity. We maintain robust processes to monitor our top depositors and limit the maximum any one credit union can deposit with us. By diversifying our membership deposit base, we are mitigating the impact of sudden withdrawals by larger depositors. We also assist our members with accessing liquidity through other means, such as non-member brokered CD issuance, and the Central Liquidity Fund. If your credit union needs liquidity, call us.

Thank you to all our members for your ongoing support. If you have any questions about our financial condition, please feel free to contact me at dbrown@corporateone.coop or 866/692-6771, ext. 9367.

Sincerely,

Denise Brown
Executive Vice President, Chief Financial Officer

Capital Ratios and NEV

The NCUA Rules and Regulations, Part 704, provides the rules for governing corporate credit unions. The rules include the capital framework, definitions for various capital instruments, and the capital ratios a corporate credit union must meet.

The following table presents the ratios, definitions of the numerators, and denominators for each of the ratios and the required minimum levels for well-capitalized and adequately capitalized designations under the regulation. The definitions of the numerators are simplifications, as the regulation contains certain adjustments to each capital calculation.

	Numerator	Denominator	Well capitalized	Adequately capitalized
Leverage ratio	Tier 1 Capital***	MDANA*	5.00%	4.00%
Tier 1 risk-based capital ratio	Tier 1 Capital***	MDANRA**	6.00%	4.00%
Total risk-based capital ratio	Total Capital***	MDANRA**	10.00%	8.00%
NEV ratio	Fair Value of Assets less Fair Value of Liabilities	Fair Value of Assets	2.00%	2.00%

*Moving Daily Average Net Assets (NCUA Rules and Regulations §704.2 allows for the deductions from Tier 1 capital to also be deducted from MDANA)

**Moving Daily Average Net Risk Weighted Assets

***As defined by the NCUA Rules and Regulations §704.2

The following summarizes Corporate One's capital and NEV ratios as of April 30, 2024.

April 30, 2024	
Retained earnings ratio	6.18%
Leverage ratio*	10.33%
Tier 1 risk-based capital ratio	34.00%
Total risk-based capital ratio	34.00%
NEV ratio	8.44%

* NCUA Rules and Regulations §704.2 allows for the deductions from Tier 1 capital to also be deducted from MDANA for use in the Leverage ratio calculation. However, one such deduction was not built into the 5310 calculations, which can result in a slightly different leverage ratio. For April, our 5310 reports an 10.32% leverage ratio.
