

TELLER

CAPTURE

Expedite processing for staff and provide immediate feedback on deposited items at point of presentment. For greater peace of mind, you can include deposit fraud protection to stop fraud in its tracks, before items are accepted for deposit.

BENEFITS

- + Resolve potential errors while members are still present.
- + Eliminate time-consuming batch processing at the end of the day.
- + Expedite processing for staff (no lines in back office) and members.

FEATURES

- + Real-time processing allows for real-time fraud detection, utilizing our fraud detection service partners.
- + Adjustable daily cut-off times can be set by branch.
- + Depositing member's account number can be associated with each deposit to expedite research.
- + Administration module displays deposit activity by teller, branch and number of items.

About TranzCapture

Corporate One uses TranzCapture LLC, a credit union service organization, as the platform for all its item processing services. TranzCapture streamlines work through its web-based platform that offers consolidated administration and processing.

Users access TranzCapture through Members Only, Corporate One's online member portal, and conduct all item processing work, including verifying items, viewing archives and running reports from one consolidated platform. Members can count on robust reporting, real-time duplicate item and batch detection and same-day access to images in a seven-year archive.

How Does it Work?

Real-time processing at each teller window reduces fraud, resolves potential errors while members are still present and eliminates time-consuming batch processing of items at the end of the day.
